Positive Solutions for Families provides information for families on how to promote children’s social and emotional skills, understand their problem behavior, and use positive approaches to help children learn appropriate behavior. This is an evidence-based, user-friendly series of 6 sessions teaching positive and effective parenting skills which in turn promote children’s social and emotional development and address challenging behavior.

This series is open to friends, family and community members. If you are interested in childcare during this time please notify Korinne Orris at 970-764-1375 or korinneorris@centura.org.
