

Implementation Science: Taking the Pyramid Model to Scale

Geneva Hallett, Director and Principal Investigator

Pyramid Plus: The Colorado Center for Social
Emotional Competence and Inclusion

Overview

Pyramid Plus Center

The Pyramid Plus Center recognizes that there are myriad points at which gaps in knowledge and practice might occur that can impede evidence-based practices from producing their intended outcomes.

The continuum of approaches to implementation of evidence-based practices exists from “letting it happen” to “helping it happen” to “making it happen” (Greenhalgh, Robert, MacFarlane, Bate, and Kyriakidou, 2004).

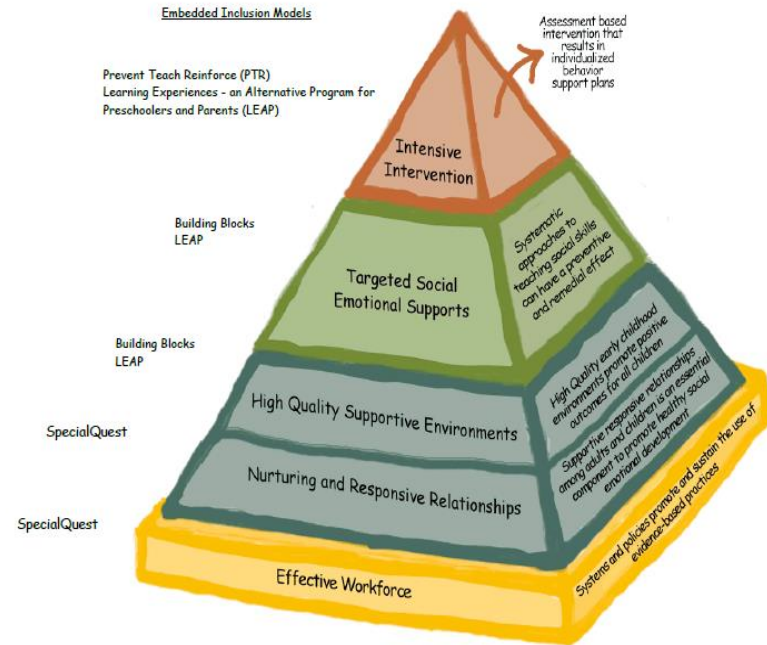

The Pyramid Plus Center takes a **“making it happen”** approach.
